

**EACH WOMAN IS UNIQUE,
BUT HAS THE RIGHT TO DECIDE...
IF THE APPEARANCE OF HER INTIMATE AREA
IS WHAT SHE WANTS OR NOT**

Over time, the outer lips of the vulva (labia majora) may lose volume and elasticity¹, and their appearance may become less harmonious^{2,3}. The discomfort caused by this change may have an impact on your self-esteem⁴.

STOP HIDING YOUR TRUE NATURE!

DESIRIAL® Plus, the injectable hyaluronic acid gel developed by Laboratoires VIVACY, is indicated in cases of **atrophy* of the labia majora and intimate aesthetic concerns.**

DESIRIAL® Plus helps **restore volume to the outer lips of the vulva.** Hyaluronic acid is placed directly into the tissues that need it.

*Loss of volume

LIFE TECHNOLOGY

HYALURONIC ACID?

A molecule which is naturally present in the human body, it is effective at improving the overall appearance of the intimate area by replacing any lost volume⁵.

Gels containing **hyaluronic acid** can be administered in various doses.

DESIRIAL® Plus is suitable for the labia majora (outer lips of the vulva).

This molecule plays an important role as it helps improve the volume of the labia majora⁶, restoring its ability to protect the labia minora (inner labia) and vagina⁷.

DESIRIAL® Plus

will help you achieve the aesthetic results you are looking for.

A TREATMENT IS AVAILABLE! HYALURONIC ACID INJECTABLE GEL DESIRIAL® Plus
